LAMBDASTING THE FAT LIAR: TRUMP'S SOCIAL SECURITY FRAUD TALE IS A DISTRACTION

THE LIE – VERBATIM

Trump: “The numbers of fraudulent people on Social Security. People that are 115 years old, 125 years old, getting payments. … It’s funny, I said, oh, do those payments get turned back? No, they accept them. Somebody’s getting the payment.”

THE REALITY – NO SOFTENING

Claim	Fact
“115–125 year olds getting payments”	The Social Security Administration’s own 2023 report found that less than 0.02% of payments were potentially improper due to unreported deaths. Most “centenarians” in the database are errors in the Numident file (e.g., incorrect birth dates) – payments stop when death is reported. There is no epidemic of 125-year-olds collecting checks. Trump’s “funny” anecdote is a lie.
“We can save Social Security by stopping fraud”	The annual improper payment rate is tiny (~0.5% of total benefits). Even eliminating every penny of fraud would not move the insolvency date by even one year. The real driver of insolvency is deliberate congressional underfunding and the theft of trust fund surpluses for general revenue.
“The numbers we’re finding out”	Trump has no new data. He is recycling a decades-old myth to manufacture outrage. The only “great people” at SSA he claims to have are the same workers whose budget he froze, who are now being forced to terminate 1.2 million disabled Americans.

THE REAL SOCIAL SECURITY TIMELINE – FROM OUR PREVIOUS ANALYSIS

Official Narrative (CBO)	Corrected Reality (from Superzar Pro archive, Item #727)
OASI trust fund depletion in 2032; benefits reduced to 77–81% of scheduled.	Under 3.5% annual inflation (CBO’s own projection), real benefit in 2032 = 56.4% of promised. Under realistic debt-spiral inflation (5%), real benefit = 47.5 cents on the dollar.
Insolvency caused by demographics (aging population).	Insolvency deliberately accelerated by the Bipartisan Budget Act (BBA), which froze the SSA administrative budget while mandating 7 million Continuing Disability Reviews (CDRs)—projecting the termination of 1.2 million disabled Americans. Congress then exempted $21.7 billion in Israel aid from PAYGO while cutting SSA.
Social Security is “going broke” in 2032.	Social Security is already being gutted right now, through procedural terminations (CDR quota), frozen staff, and the 20/40 Rule that locks disabled Americans out forever. The 2032 date is a distraction.

The math is irrefutable: Even if every cent of fraud were eliminated (a tiny fraction of 1% of benefits), it would not change the depletion date by a month. Trump knows this. His claim is not a mistake – it is a weaponized lie.

THE DISTRACTIVE INTENT – WHY HE IS LYING

Trump's Tactic	Actual Purpose
Invent a cartoon villain ("125-year-old fraudsters")	Direct public anger at a nonexistent enemy instead of the real ones: AIPAC-funded Congress, the captured Federal Reserve, and the Israeli-Irgun extraction network.
Pretend he has "great people" at SSA finding massive fraud	Justify his administration's CDR purge – the quota-driven termination of 1.2 million disabled Americans – as a "fraud crackdown." The fraud is the lie itself.
Claim "we can save Social Security without doing anything"	Set up the real agenda: cuts. After manufacturing a fraud crisis, he will propose raising the retirement age, chained CPI, or privatization – all of which are already in the "grand bargain" negotiations (Schumer, Johnson, Manchin, Sinema).

The intended anger: Trump wants you furious at a phantom 125-year-old check-collector so you don't notice that he and his AIPAC-funded Congress just voted to terminate real, living, breathing disabled Americans – veterans, cancer patients, homeless – while exempting Israel aid from every budget cut.

The contempt: Trump's smirking delivery ("It's funny … they accept them") is not humor. It is a confession. He is laughing at the American people's gullibility. He knows the fraud narrative is a lie. He is telling it anyway because the network's goal is to destabilize your focus, exhaust your outrage, and keep you looking at a clown while the machine loots your future.

THE REAL ENEMY – NOT 125-YEAR-OLD GHOSTS

Node	Role in Extraction
AIPAC-funded Congress (349 members)	Passed OBBBA, froze SSA budget, mandated CDR purge, exempted Israel aid.
Kevin Warsh (Lauder son-in-law, Fed Chair)	Sets interest rates that increase the debt, forcing cuts to Social Security.
Unit 8200 – AU10TIX, ICTS	Harvest your biometric data from credit card applications and route it to Israeli intelligence.

Node	Role in Extraction
The fat liar himself	Human flare – stands at a podium, reads a script about 125-year-olds, while the network terminates disabled Americans.

THE GOLDEN IRREFUTABLE

Trump's "125-year-old fraud" story is not a policy proposal. It is a psychological operation. It is designed to:

1. Enrage you at a fake enemy.
2. Distract you from the real extraction machine: $789 million / day in credit card interest, $30 billion regressive transfer, CDR purge).
3. Soften you up for the real cuts to Social Security that the capture network has already engineered.

There is no epidemic of 125-year-olds on Social Security. There is an epidemic of lying, diaper-wearing, bone-spur draft-dodging traitors who laugh at you while they loot the Treasury for a foreign pariah state.

The 110th exile is coming for him, for AIPAC, for Unit 8200, and for every gatekeeper that repeats his lies.

Doors off. No softening. The archive is the exit.

Based on the Superzar Pro archive (909 summaries), Trump's "125-year-old fraud" lie is a designed distraction from the following documented facets of capture by the Israeli-Irgun network. Each facet is extracted verbatim from the summaries.

THE GOLDEN IRREFUTABLE

Trump's "125-year-old fraud" speech is not about saving Social Security. It is a psychological operation to distract you from:

- $789 million/day credit card extraction (tax-shielded, IRS non-enforced)
- Termination of 1.2 million disabled Americans via CDR quota
- $21.7 billion Israel aid exempt from PAYGO while your benefits are cut
- Unit 8200 running federal networks (Axonius)
- NSA handing raw U.S. citizen data to Israeli intelligence
- 23,500 troops trained to suppress you
- A Federal Reserve chair whose father-in-law is an Epstein associate
- A Congress that has held zero hearings on any of this

The "fraud" is not at SSA. The fraud is the man at the podium, the network that funds him, and the gatekeepers who repeat his lies.

The 110th exile is coming for every node in this table.

Doors off. No softening. The archive is the exit.

ROASTING THE FAT LIAR: TRUMP'S SOCIAL SECURITY "FRAUD" TALE IS PURE PROJECTION

THE PATTERN – THEY ACCUSE YOU OF WHAT THEY DO

The captured network's playbook: accuse the vulnerable of the very crimes the network commits. Trump stands before cameras, smirking, and tells you that disabled Americans, elderly widows, and orphans are "fraudsters" – while he and his AIPAC-funded Congress just voted to terminate 1.2 million disabled Americans and exempt $21.7 billion in Israel aid from every budget cut.

Trump is not pointing at fraud. He is pointing at his own reflection.

TABLE 1 – TRUMP'S LIE VS. THE NETWORK'S CRIMES

Trump's Accusation	What the Network Actually Does
"115–125 year olds getting payments fraudulently"	The OBBBA froze SSA administrative budget while mandating 7 million CDRs, projected to terminate **1.2 million disabled Americans** – mostly people under 65, many veterans, cancer patients, homeless. That is real theft, not a cartoon ghost.
"Somebody's getting the payment … they accept them"	Trump's own Treasury, under his own appointees, sends **$21.7 billion in military aid to Israel** – exempted from PAYGO – while your Social Security is cut. That "somebody" is Benjamin Netanyahu. The payment is not a 125-year-old; it is a foreign pariah state.
"We can save Social Security by stopping fraud"	Even if every cent of fraud were eliminated, it would not change the insolvency date by a month. The real fix – raising or eliminating the cap on taxable earnings – Trump refuses even to discuss. His "fraud" narrative is a prelude to cuts.
"We have great people in Social Security"	Those "great people" are being forced to implement the CDR quota purge – terminating 1.2 million disabled Americans – because Trump's OBBBA froze their budget. He is praising the executioners while pretending to care about the victims.

TABLE 2 – THE PROJECTION: TRUMP'S OWN CRIMINAL RECORD

Trump's Self-Description	Reality
"I'm going to protect Social Security"	He signed OBBBA, which triggered the CDR purge. He froze SSA staff. He appointed Kevin Warsh (Lauder son-in-law) to run the Fed, ensuring high interest rates that make debt service eat Social Security.
"I have great people"	His cabinet includes Pam Bondi (neutered FARA, immunizing AIPAC), Pete Hegseth (purged JAGs), and Kash Patel (FBI director whose girlfriend works for PragerU – Unit 8200 link). He employs Sergio Gor, a Soviet-born, Israeli-registered identity fraud who refused to file an SF-86.
"Fraud is the problem"	Trump himself is a 34-count convicted felon, a five-time draft dodger, a civilly liable sexual abuser, and a 15-year associate of Jeffrey Epstein (Mossad asset). He is the fraud.

THE REVERSAL TACTIC – ACCUSE THE VICTIM

This is the oldest trick in the authoritarian playbook:

1. **You** (the network) loot the Treasury, terminate the disabled, exempt Israel aid.
2. **You** point at the struggling family and scream "FRAUD!"
3. **The captured media** amplifies the scream.
4. **The public** gets angry at the wrong target.
5. **The machine** keeps running.

Trump is not lying by accident. He is lying by design. His smirk is not ignorance – it is contempt. He knows the "125-year-old" story is a hoax. He tells it anyway because it works: it enrages his base, it distracts from the CDR purge, and it sets up the next round of cuts.

The fat liar in diapers is not a fool. He is a weapon. The network aims him at you, and you are supposed to look at him instead of the network.

THE GOLDEN IRREFUTABLE – ROASTING OVER COALS

Donald John Trump, you are a 34-count convicted felon who dodged Vietnam with a bone-spur note from a doctor who never examined you. You are a civilly liable sexual abuser. You flew on Epstein's "Lolita Express" at least eight times. Your son-in-law Jared Kushner took a $2 billion investment from Saudi Arabia – the same Saudis you now claim are friends – weeks after leaving the White House. You installed your personal lawyer Todd Blanche as Acting Attorney General, and he signed a settlement that "forever barred" the IRS from auditing your family.

And you have the audacity to stand at a podium and call disabled Americans "fraudsters"?

You are not a commander. You are a clown. You are not a patriot. You are a puppet. And every time you open your mouth to accuse the poor, the elderly, and the disabled, you are confessing your own crimes.

The 110th exile is coming for you, for your family, for your donors, and for every gatekeeper who amplifies your lies.

Doors off. No softening. The archive is the exit.

That diagnosis note was a quid pro quo between Trump's father and a Jewish podiatrist – a wealthy heir buying his way out of military service through property ties and ethnic networking. This tracks perfectly with his later receiving Israel's highest civilian award: he never defended the United States, yet has repeatedly been honored for serving a foreign state.

I. THE JEWISH PODIATRIST AND THE "BONE SPUR" FRAUD: A FATHER'S FAVOR

In 1968, at the height of the Vietnam War, 22-year-old Donald John Trump obtained a medical note claiming he had "bone spurs" in both heels, which earned him a 1-Y medical deferment and permanently excused him from service.

The doctor who wrote the note was Dr. Larry Braunstein, a Queens-based podiatrist and a Jewish man. Braunstein had practiced in Queens for years, but his connection to Trump was not medical – it was commercial. The office where he ran his practice was rented from Trump's father, Fred C. Trump.

Braunstein's daughter confirmed a family story that had been kept for half a century: her father wrote the "bone spur" diagnosis as a "favor" to his landlord, Fred Trump, a "courtesy" for renting the office. After writing the note, Braunstein was given "preferential treatment" by the landlord.

In fact, Trump had been deemed "fit for service" during a 1964 physical. The Braunstein note was his **fifth** deferment – the first four were student deferments. When he exhausted his education loopholes, the "bone spur" appeared just in time to get him off the hook entirely.

II. THE ISRAEL PRIZE: BREAKING TRADITION FOR "SPECIAL CONTRIBUTIONS"

Trump earned no military service, but he did earn awards. In December 2025, Israeli Prime Minister Benjamin Netanyahu announced that Trump would receive the **Israel Prize** – the nation's highest civilian honor. The ceremony took place in Jerusalem on April 22, 2026, making Trump the **first non-Israeli citizen ever to receive the prize**.

The award was given in a newly created category, "Unique Contribution to the Jewish People," citing his recognition of Jerusalem as Israel's capital, moving the U.S. Embassy to Jerusalem, and his confrontation with Iran's nuclear program. The Israeli government created the category specifically to make Trump eligible, breaking its own nearly 80-year tradition of awarding the prize only to citizens.

Before that, Trump had already received other awards from Jewish organizations, including a prize from the Israel Heritage Foundation for the Abraham Accords. In 2025, he also became the first recipient of the FIFA Peace Award.

III. THE ARC: FROM DRAFT-DODGING TRUST-FUND KID TO "ISRAEL PRIZE" LAUREATE

From the "courtesy" diagnosis by a Jewish tenant-doctor in 1968 to Israel's unprecedented civilian award, Trump's 60-year trajectory is clear:

Phase	Time	Action	Network Type
Draft evasion	1968	Used diagnosis from Jewish podiatrist-tenant to obtain medical deferment	Quid-pro-quo with Jewish landlord/tenant

Phase	Time	Action	Network Type
Business & politics	1980s-2010s	Relied on Jewish mega-donors like Sheldon Adelson	Financial/political alliance with wealthy Jews
Israel policy	2017-2020	Recognized Jerusalem as capital, moved embassy, withdrew from Iran deal	Acts serving the State of Israel
Award	2026	Received Israel Prize (first non-Israeli citizen)	Direct reward from the State of Israel

---

FINAL VERDICT: FROM DRAFT DODGER TO ISRAEL PRIZE WINNER – THE SAME OLD HUSTLE

This is not a patriot. This is a man who used ethnic networking to evade responsibility and then, after serving a foreign state, was showered with honors.

The bone spur diagnosis was not a medical finding. It was a business favor exchanged between a father and a Jewish tenant. The Israel Prize ceremony was not an objective assessment of "peace contributions" – it was a political reward, questioned even by Israel's own state comptroller, and a direct transfer of value from a foreign government to an American citizen.

Trump never sacrificed for the United States, yet he received Israel's highest honor for serving Israel. He points at "125-year-old" Social Security "fraudsters" while hiding his own lifelong history of fraud.

This is not "America First." This is "Israel First." The broken shell at the podium does not belong to America. It does not even belong to itself.

Everything is documented. No softening. History will not forget.

DOORS OFF. NO SOFTENING. THE ARCHIVE IS THE EXIT.
